\*Percentages not calculated for counts under six or federal lands.

Eligible Population for the primary series expanded to 6 months and older as of 6/17/2022. California Immunization Registry (CAIR2), SANDAG 2019 Population Estimates (Prepared June 2020). The total estimated eligible Population in San Diego County is 3,351,784 individuals, which is the total estimated San Diego County population as estimates are calculated by years. Health Equity Quartile census tracts identified using CPDHI Healthy Places Index methodology applied to San Diego County.

<sup>^</sup> Primary vaccine series completion is defined as receipt of 2 vaccine doses for persons over the age of 5 who received Pfizer-BioNTech, Moderna, NovaVax, Astrazeneca, or receipt of 2 doses for persons who received unspecified U.S.-authorized or approved COVID-19 vaccine, or receipt of 1 dose for persons who received Janssen. For those 6 months to 4 years of age, primary vaccine series completion is defined as receipt of 3 vaccine doses for persons who received Pfizer-BioNTech, or receipt of 2 doses for persons who received Moderna. Immunocompromised status cannot be determined, therefore, the recommended primary vaccine series schedule is not listed for immunocompromised individuals aged 6 months to 4 years.

Doses registered through 2/20/2023. Updated 2/23/2023.
